## Objective

I seek employment overseeing the development of website applications. I desire to continue my involvement in multi-tier programming towards responsive platforms. I am a full-stack developer focused on new technologies from server to client with technical leadership experience.

**Health Level Seven, International 2016-Present** *Director of Technical Services*  
International Standards Organization. Head Atlassian Confluence, Amazon Web Services Integrations, DMARC Compliance, Office365 Management

- Develop New Solutions for International Website
- SQL Server to AWS RDS Migration, EC2 Atlassian Confluence/JIRA Creation
- Lyris ListServe Management, SPF/DKIM/DMARC Integration
- Internal Hardware Upgrades for Mobile Employees
- Facilitated Creation of Multiple HL7 Sites for Individual WorkGroups

**Grand River/Perficient 2014-2016** *Senior Technical Lead*

Boutique E-Commerce Agency. I oversaw development using Agile practices and the Scrum methodology.

- Delivered Ford Motor Company Extended Warranty Website
- Facilitated Delivery of Ongoing Magento Projects
- Reviewed, Returned or Approved Development Tasks using Atlassian Software
- Responsive Upgrades to Desktop Websites

**One Source Talent 2011-Present** *Internet Development*

Talent Service Agency. As lead developer, I am essential in developing new features.

- Continual Legacy Code Updated To Object Oriented Platform
- Design and Implement ReSTful Services Solution
- Created A/B Testing To Track Conversion Rates On Multiple Sites
- Implemented Appointment Confirmations with Twilio API
- High Traffic PHP/MySQL/Bootstrap Application Submission
- Numerous Accounting Upgrades / Business Developments

**RGH Enterprises 2007-2011** *Internet Development*

Wholesale and Retail Medical Supplies Company. As a senior developer, I was involved in multiple E-Commerce site rewrites and new functionality.

- Designed and Developed Wholesale and Retail Web-Based Supply Management Solution (ColdFusion/SQL2K5)
- Designed and Developed Wholesale Formulary Management and Buying Solution (ColdFusion/SQL2K5)

- ColdFusion 8 Upgrades for Enterprise-Based, Load-Balanced Servers.
- Implemented and Maintained Documentation through Wiki, BugTracking, and Self-Developed Solutions

### **HumanArc 2005-2007** *Internet Development*

Health Care Assistance Provider. I was hired to head Web-based technologies. Created Internal and External solutions for multiple departments.

- Ohio HCAP Online Application / Management (PHP/SQL2K)
- PDF Form Generation (ASP.NET/C#)
- Trade Show TouchScreen Survey (PHP/MySQL)
- Intranet (DotNetNuke/SQL2K/C#)

**HKM Direct Market 2000-2005** *Senior Web Developer - Manager Internet Services*  
Print/Fulfillment Company with Internet department. I took over maintenance/upgrades of their Online Inventory System and began creating additional sites.

- Extranet Job Progress Boards - Clients track job status(ASP/SQL7)
- Lead Management/CRM - Fed by client back-end system (ASP/SQL7/AS400)
- Flyer Creation/Printing Application - PDF creation/online uploads (ASP/SQL2K)
- Virtual Sales Center - E-mail/CRM system for literature request (ASP/SQL2K)

### **Ohio Online 1998-2000** *Web Development Consultant*

Project-based Internet solutions and support. Hired to fill a Microsoft void, I obtained my MCSE+I while developing applications with PHP and Lotus Notes R4.

- Flight Request HR Application - Law firm Intranet solution (JavaScript/ASP)
- Web-Based Company Directory on PHP/LDAP
- Job Tracking Application – Web-based quote to production (JavaScript/Notes)
- Online Prescription Refills - Drugstore Internet Refills (JavaScript/Notes)
- Publishing/File Versioning - Files uploaded and indexed(PHP/MySQL)

### **Systems**

I have developed on multiple operating systems with multiple editors. \*BSD, Windows and Linux with VI, Visual Interdev and various plain text editors.

### **Languages**

I have a logical mind and the ability to switch from language to language as necessary. In an ever-changing industry it has been important for me to focus on programming structure with whatever tools supplied. I have experience in ColdFusion, jQuery, ASP, PHP, C#, LotusScript, JavaScript, VBScript, w3c X/HTML, CSS, Perl, T-SQL, SQL and more.

### **Additional Comments**

I am often called on to assist sales people as a sales engineer. I work very well under pressure and can function in many environments. I am willing to travel. My natural curiosity towards all things web coupled with dynamic personality has allowed me to live a life steeped in technology!
